 - (1) \$10 for each regular semester or summer term of more than six weeks; or
 - (2) \$5 for each summer session of six weeks or less.
- (e) An institution that imposes the environmental service fee may not use the revenue generated by the fee to reduce or replace other money allocated by the institution for environmental projects.
- (f) Any fee revenue that exceeds the amount necessary to cover current operating expenses for environmental services and any interest generated from that revenue may be used only for purposes provided under Subsection (c).
- (g) The fee is not considered in determining the maximum amount of student services fees that an institution of higher education may charge.
- (h) The fee may not be charged after the fifth academic year in which the fee is first charged unless, before the end of that academic year, the institution has issued bonds payable in whole or in part from the fee, in which event the fee may not be charged after the academic year in which all such bonds, including refunding bonds for those bonds, have been fully paid.

General Deposits:

Authorized under TEC § 54.502.

- (a) An institution of higher education may collect a reasonable deposit in an amount not to exceed \$100 from each student to insure the institution against any losses, damages, and breakage for which the student is responsible and to cover any other amounts owed by the student to the institution. The institution shall return to the student the deposit, less any such amounts owed to the institution by the student. The deposit must be returned within a reasonable period after the date of the student's withdrawal or graduation from the institution, not to exceed 180 days, that provides the institution with sufficient time to identify all amounts owed and to determine that the student does not intend to enroll at the institution in the semester or summer session immediately following the student's withdrawal or graduation or, if the student withdraws or graduates in the spring semester, in the next fall semester.

- (b) A student enrolled in more than 15 semester credit hours shall pay the fee in an amount equal to the amount imposed on a student enrolled in 15 semester credit hours during the same semester or session.
- (c) The fee may not be charged before the first semester a new football stadium is available for use at the university.
- (d) If compulsory student services fees are charged to students enrolled at the university under section 54.503, the total amount of those fees charged to a student shall be reduced by \$3 per semester credit hour for the first semester in which an intercollegiate athletics fee is charged under this section.
- (e) Revenue from the fee charged under this section may be used only for financing, constructing, operating, maintaining, or improving an athletic facility or for operating an intercollegiate athletics program at the university.
- (f) The fee may not be charged unless approved by a majority vote of the students enrolled at the university who participate in a general student election held for that purpose. The ballot for the election to approve the fee must state a maximum amount of the fee that may be charged per semester credit hour, not to exceed the maximum amount prescribed by Subsection (a).
- (g) The amount of the fee may not be increased to an amount that exceeds by 10 percent or more the amount of the fee as last approved by a student vote under Subsection (f) or this subsection unless the increase has been approved by a majority vote of the students enrolled at the university who participate in a general student election held for that purpose.
- (h) The chief fiscal officer of the university shall collect the fee and shall deposit the revenue from the fee in an account to be known as the intercollegiate athletics fee account.

- (j) The fee may not be charged after the fifth academic year in which the fee is first charged unless,

- c) The international education financial aid fund shall be used in accordance with guidelines jointly developed by the student governing body of the institution and the administration of the institution. If an institution does not have a student governing body, the president may appoint a committee of students to assist with the development of the guidelines.
- d) The fee imposed under this section may not be considered in determining the maximum student services fee that may be charged students enrolled at the institution under section 54.503(b) of this code.

Mandatory - Incidental Fees:

Authorized under TEC § 54.504.

- (a) The governing board of an institution of higher education may fix the rate of incidental fees to be paid to an institution under its governance by students and prospective students and may make rules for the collection of the fees and for the distribution of the funds, such funds to be accounted for as other designated funds. The rate of an incidental fee must reasonably reflect the actual cost to the university of the materials or services for which the fee is collected. In fixing such rate, the governing board may consult with a student fee advisory committee which the governing board may establish if such student committee does not presently exist.
- (b) The board shall publish in the general catalog of the university a description of the amount of each fee to be charged.
- (c) In this section, "incidental fees" includes, without limitation, such fees as late registration fees, library fines, microfilming fees, thesis or doctoral manuscript reproduction or filing fees, bad check charges, application processing fees, and laboratory breakage charges, but does not include a fee for which a governing board makes a charge under the authority of any other provision of law.

- (b) Before charging a medical services fee at a component institution, the board must give students and administrators an opportunity to offer recommendations to the board as to the type and scope of medical services that should be provided.
- (c) The board may not increase the amount of the medical services fee charged at a component institution by more than 10 percent from one academic year to the next unless the amount of the increase is approved by a majority of the students at the institution voting in a general election held at the institution for that purpose.
- (d) A medical services fee charged at a component institution of the University of North Texas System under this section may be used only to provide medical services to students registered at that component institution.

 - (c) The student fee advisory committee annually shall submit to the board of regents a complete and itemized budget for the recreational facility with a complete report of all recreational facility activities conducted during the past year and all expenditures made in connection with those activities. The board may make changes in the budget that the board determines are necessary. After approving the budget, the board, in accordance with this section, may impose the recreational facility fees for that year in amounts sufficient to meet the budgetary needs of the recreational facility. If the budget approved by the board contains an expenditure for the construction of a facility, the board may contract for the construction of the facility.
 - (d) The board may not increase the amount of the recreational facility fee by more than 10 percent in any academic year unless the amount of the increase is approved by a majority of the students participating in a general election held at the university for that purpose.
 - (e) A fee imposed under this section is in addition to any other use or service fee authorized to be imposed.
 - (f) A fee imposed under this section may not be considered in determining the maximum student services fees that may be imposed under section 54.503(b).

Student Services Fee:

Authorized under TEC § 54.503.

(a) For the purposes of this section:

(1) "Student services" means activities which are separate and apart from the regularly scheduled academic functions of the institution and directly involve or benefit students, including textbook rentals, recreational activities, health and hospital services, medical services, intramural and intercollegiate athletics, artists and lecture series, cultural entertainment series, debating and oratorical activities, student publications, student government, the student fee advisory committee, student transportation services other than services under sections 54.504, 54.511, 54.512, and 54.513 of this code, and any other student activities and services specifically authorized and approved by the governing board of the institution of higher education. The term does not include services for which a fee is charged under another section of this code.

(2) "Compulsory fee" means a fee that is charged to all students enrolled at the institution.

(3) "Voluntary fee" means a fee that is charged only to those students who make use of the student service for which the fee is established.

(b) The governing board of an institution of higher education may charge and collect from students registered at the institution fees to cover the cost of student services. The fee or fees may be either voluntary or compulsory as determined by the governing board. The total of all compulsory student services fees collected from a student at an institution of higher education other than The University of Texas at Austin or a component institution of the University of Houston System for any one semester or summer session shall not exceed \$250. All compulsory student services fees charged and collected under this section by the governing board of an institution of higher education, other than a public junior college, shall be assessed in proportion to the number of semester credit hours for which a student registers. No portion of the compulsory fees collected may be expended for parking facilities or services, except as related to providing shuttle bus services.

(c) The provisions of this section do not affect the building use fees or other special fees authorized by the legislature for any institution for the purpose of financing revenue bond issues.

(d) All money collected as student services fees shall be reserved and accounted for in an account or accounts kept separate and apart from educational and general funds of the institution and shall be used only for the support of student services. All the money shall be placed in a depository bank or banks designated by the governing board and shall be secured as required by law. Each year the governing board shall approve for the institution a separate budget for student activities and services financed by fees authorized in this section. The budget shall show the fees to be assessed, the purpose or functions to be financed, the estimated income to be derived, and the proposed expenditures to be made. Copies of the budgets shall be filed annually with the coordinating board, the governor, the legislative budget board, and the state library.

(e) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 359, § 16(2), eff. January 1, 2012.

(f) If the total compulsory fee charged under this section is more than \$150, the increase does not take effect unless the increase is approved by a majority vote of the students voting in an election held for that purpose or by a majority vote of the student government at the institution. In subsequent years, an election authorizing a fee increase must be held before

the fee can be increased by more than 10 percent of the fee approved at the last student election.

- (g) If a student registers at more than one institution of higher education within a college or university system under concurrent enrollment provisions of joint or cooperative programs between institutions, the student shall pay all compulsory student services fees to the institution designated as the home institution under the joint or cooperative program. The governing board of the college or university system may waive the payment of all compulsory student services fees at the other institution or institutions.
- (h) Except for Subsection (g) of this section, this section does not apply to The University of Texas at Austin or a component institution of the University of Houston System.
- (i) General revenue appropriations, other educational and general income, and funds appropriated under Article VII, sections 17 or 18, of the Texas Constitution may be expended on a proportional use basis to support the services, activities, and facilities provided for in this section to the extent that the use of such funds is not otherwise restricted by the Texas Constitution or general law.

Student Union Fee:

Authorized under TEC § 54.515.

- (a) The governing board of each institution of higher education may charge each student registered at the institution a student union fee not to exceed \$20 for each regular semester and not to exceed \$10 for each term of the summer session for the sole purpose of financing, constructing, operating, maintaining, and improving a student union building. The fee may not be imposed, and may not be increased above \$10 for each regular semester and \$5 for each term of the summer session, unless the imposition or increase is approved by a majority vote of those students participating in a general election. The fees authorized by this section are in addition to any other use or service fee authorized by law to be charged and collected by the institution.
- (b) The fees collected under Subsection (a) of this section shall be deposited in a designated account and shall be placed under the control of and subject to the order of a student advisory committee. The student advisory committee annually shall submit to the governing board of the institution a complete and itemized budget to be accompanied by a full and complete report of all activities conducted during the previous fiscal year and all related expenditures made during that year. The governing board shall make any changes in the budget as it considers necessary before approving the budget and shall charge and collect the fees as provided by this section in amounts sufficient to meet the budgetary needs of the student union building and within the limits authorized by this section.
